

Adult Driver Training Package

Beginner Driver Training

- **Beginner Simulation Lab**

(8 hours – private instruction scheduled in four 2-hour lessons in three to four weeks)

This course is designed to assist students in developing their basic skills and good driving habits. Students will experience scenarios on the beginner simulator, designed around 6 core objectives:

- Shuffle steering
- Pedal control
- Lane management
- Scanning
- Intersections
- Observation, planning, decision making and judgment

Rules of the Road Permit Prep Class *(4 hours – can be added if student does not have permit and wants a prep class)* This class is an intensive review and is designed to help students develop a basic understanding of the rules of the road. Students are given a comprehensive evaluation at the end of the class to test their knowledge.

- **Coaching Class – (2 hours)** This is the second half of the parent class and is appropriate for anyone that will be practicing with the novice adult driver. The class provides tips and techniques from a DrivingMBA instructor who introduces what to do when practicing with the student.

On-Road Driving Instruction

- **On-Road Driving Lessons**

(6, 8, 10 or more hours 1:1 instruction scheduled in 2-hour lessons)

Private instruction designed to continue to build basic skills around 6 core objectives listed above. Student is exposed to a multitude of driving situations such as city and freeway driving and more. During the last 2-hour lesson the student has a brief warm-up and is evaluated. *If the student is in a 10 hour or more program and passes DrivingMBA's evaluation, they are issued a waiver that may waive the test at the MVD.*
