

Beginner Driver Training Package

Beginner Driver Training

- **Beginner Simulation Lab**

(8 hours – semi-private instruction scheduled in four 2-hour lessons in two to three weeks)

This course is designed to assist students in developing their basic skills and good driving habits. Students will experience scenarios on the beginner simulator, designed around 6 core objectives:

- Shuffle steering
- Pedal control
- Lane management
- Scanning
- Intersections
- Observation, planning, decision making and judgment

- **Responsibilities of Driving Class**

(2 hours – ideally scheduled early on in the program)

Designed to help students develop a healthy respect for driving – including the dangers of texting while driving, driving with other teens in the vehicle, and more!

Responsibilities of Driving

(2 hrs.)

- **Parent Class – Mandatory if student is testing with DrivingMBA**

(3 hours – ideally scheduled early on in the program)

Designed for the parents or guardian of the student to assist them in the practice phase of the driver training process. The class includes information regarding teenage driving and instruction from a DrivingMBA instructor who introduces what to do when practicing with your student.

Parent Class

(3 hrs.)

On-Road Driving Instruction

- **On-Road Driving Lessons**

(1:1 instruction scheduled in 2-hour lessons – packages available with 6, 8 or 10 hours of instruction)

Private instruction designed to continue to build basic skills around 6 core objectives listed above. Student is exposed to a multitude of driving situations such as city and freeway driving and more. During the last 2-hour lesson the student has a brief warm-up and is evaluated. *If a student is registered for a program including 10 hours of on-road instruction, the student is evaluated. If the student passes DrivingMBA's evaluation, they are issued a waiver that will waive the test at the MVD.*

Optional Courses: *(additional charge)*

- **Rules of the Road Permit Prep Class**

(4 hours – ideally scheduled after 2 or 3 beginner simulation lessons)

This class is an intensive review and is designed to help students develop a basic understanding of the rules of the road and to prepare them to take the test at the MVD. Students are given a comprehensive evaluation at the end of the class to test their knowledge.
